

## **TRAFFIC SITUATION REPORT FROM APM TERMINALS AS AT 17/11/2017.**

**Dear Customer,**

Traffic was at a standstill for the early part of yesterday, which necessitated us escalating the challenges noticed.

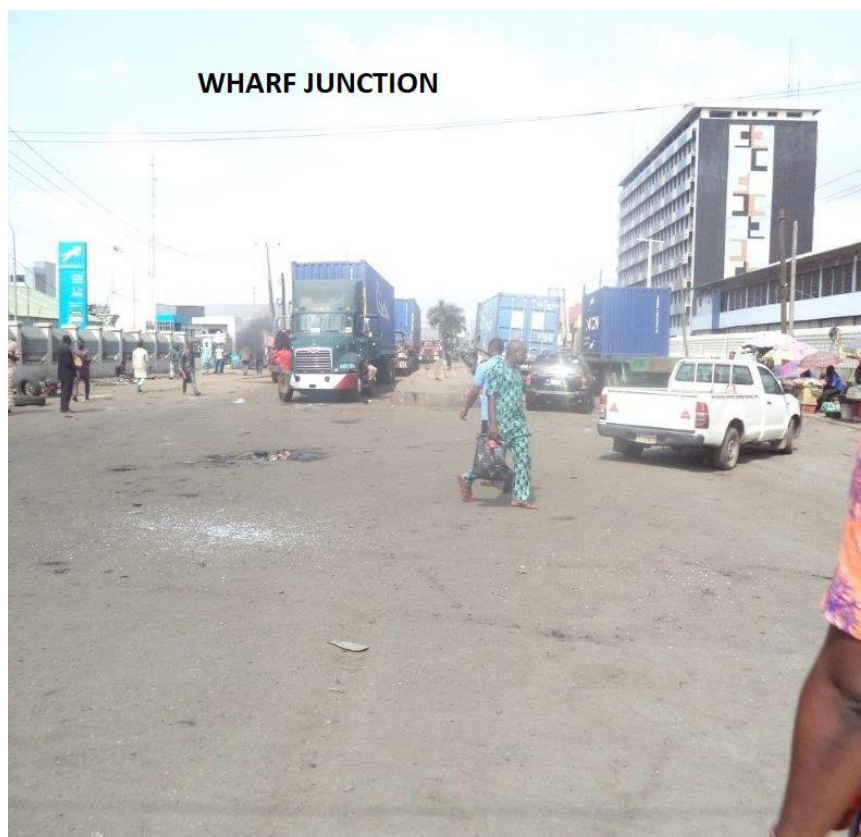

This resulted in a slight respite in the traffic gridlock at about 1 pm.

In the last 24 hours we were able to service only 285 trucks, with total transactions at 785. 58% of the total transactions were import deliveries while the rest were export/empties.

The traffic situation now is a lot better than what we have experienced in the last 3 days.

We hope it will be sustained by the various security agencies.
