

2018

AMG LOGISTICS NIGERIA LIMITED OPERATIONS UPDATE.

Dear Esteemed Customer,

Traffic situation in the last 24hrs started out with free flow of trucks movement **Outbound Lagos Port Complex** and **Inbound Apapa Port**.

We've been experiencing low influx of trucks calling APMT because of the ongoing NPA call-up system which mandated Shipping Lines that all empty units should be returned to the shipping lines holding bay.

Over the last 24hrs, **510** trucks were serviced in the terminal with a total of **1445** transactions.

Kindly, note that APMT gates are open for all trucks calling our facility with valid transactions.

Please find pictures within Lagos Port Complex with time stamp:
